

## Join us for a free, member-only Conference!

We are bringing together experts and industry leaders to explore the dynamic landscape of the engineering construction industry. Our focus will be on critical topics such as achieving net zero, tackling the skills shortage and driving innovative progress. Don't miss this opportunity to connect, collaborate and shape the future of our industry.

The event starts at 9:00 am and includes topical speaker presentations and discussions, networking opportunities throughout the day and particularly at lunch and 3-course dinner. For discounted room rates at the Hilton hotel please follow [this link](#).

# ECIA Conference

21st May 2025, Hilton Cardiff

**TODAY'S FOUNDATIONS  
FOR TOMORROW'S INDUSTRY**

## REGISTRATION

Places are limited,  
booking closes on  
4th of April.  
Please register [HERE](#).

## OUR SPEAKERS

**Ben Burggraaf**  
*CEO, Net Zero Industry Wales*

Ben is developing detailed Net Zero Strategies and associated deployment plans, providing practical guidance and resources to help the Welsh industry in their transition to taking up low-carbon technologies.

**Chris Mann**  
*Director of Learning & Assurance, ECITB*

Chris is leading the development of the learning strategy and skills delivery by embedding emerging technologies. You will be able to contribute to his vision of assuring competency in engineering construction.

**Dominic Bennett**  
*CEO, On Wellbeing*

Harnessing knowledge around behaviour change and mental health, Dominic developed solutions to significantly improve the lives of operatives and the organisation. Employees are able to access mental health support via a bespoke app without the fear of judgment.

**Mohammad Wasway**  
*Founder, PatientsCann UK*

Mohammad collaborates with industry leaders to promote patient rights and advocate for fairer access to medical cannabis treatments in the UK. He is an author of the publication "The use of prescription cannabis in buildings".
